## **Practice with Division**

Please choose the best answer to each of the following questions.

1.  $\frac{6}{1} =$

7

5

1

6

0

2. 5 can be divided evenly into

2

7

75

1

3. Divide:  $23 \div 7$

2 r 5

3 r 4

3 r 2

2 r 6

4.  $34 \div 8$

5.2

3.974

4.25

4.334

5.  $78 \div 6$

13

14

12

9

6.  $73 \div 456$

6.25

.16

6

7.  $129 \div 12$

9.75

9.95

10.95

10.75

8.  $\frac{10}{3} =$

3.333

3

3.1

10

1.333

9. Calculate the quotient for  $13 \div 8$

.7222

1.384615

None of the above
