Practice with Dividing Decimals

Please choose the best answer to each of the following questions.

1. What is $.105 \div 10$?

.00105

1.05

.0105

2. $\frac{.1}{.8} =$

1.25

8.10

.18

1.08

.125

3. What is the quotient for $\frac{.396}{.33}$?

1.2

.12

None of the answers are correct

4. What is the quotient for $\frac{.98}{.7}$?

.14

1.4

None of the answers are correct

5. $.125 \div .2 =$

.625

62.5

.25

25.0

6.25

6. $.666 \div .333 =$

6.3

2.222

3

2

.999

7. $.648 \div .432 =$

6.5

.25

2

1.5

.666

8. $.2 \div 5 =$

.04

10

.1

.01

1

9. Tom had 65 cents. He wanted to buy candy bars that each cost 13 cents. How many can he buy?

13

1

5

10

6

10. $26.402 \div 4.3 =$

6.1395

6.5

6.14

.163
