Practice Adding Fractions

Please add the following fractions and write their sum. Please simplify or rewrite as a mixed number or whole number if needed.

1. $\frac{1}{5} + \frac{2}{5} =$

2. $\frac{3}{10} + \frac{6}{10} =$

3. $\frac{1}{2} + \frac{1}{2} =$

4. $\frac{2}{4} + \frac{1}{4} =$

5. $\frac{4}{7} + \frac{5}{7} =$

6. $\frac{6}{20} + \frac{11}{20} =$

7. $\frac{1}{4} + \frac{1}{2} =$

8. $\frac{2}{3} + \frac{1}{6} =$

$$9. \frac{2}{4} + \frac{5}{12} =$$

$$10. \frac{1}{5} + \frac{2}{3} =$$

$$11. \frac{14}{12} + \frac{6}{5} =$$

$$12. \frac{8}{7} + \frac{10}{3} =$$

$$13. 4\frac{3}{4} + \frac{2}{4} =$$

$$14. 7\frac{1}{2} + 2\frac{1}{3} =$$

$$15. 4\frac{5}{6} + \frac{34}{8} =$$
